About Us

ULTIMATE was formed in 2006 by a group of talented people with a wide array of technical and business skills. We are Microsoft Gold Certified Partners and small business specialist which demonstrates the highest degree of expertise in working with Microsoft technologies. At this level, we have the opportunity to build the closest possible working relationship with Microsoft, and receive the program's top benefits.

ULTIMATE ranks among the top IT firms in Yemen in a very short period of time, serving clients with dedication and commitment. Our staff and management have wide backgrounds, encompassing consultancy, software development, training, research and direct marketing.

ULTIMATE applies extraordinary skills and years of experience to enhance the power of each solution and service, which empowers clients all the more to expand beyond their own boundaries to reach out for newer competencies and broader marketplaces.

ULTIMATE is a company established to provide better services for the IT community in Yemen. Since the day we started, our policy is to make long-term partnership with Microsoft providing solutions and service based on Microsoft technologies, and to build a long-term relationship with our clients.

We are currently involved in the development and deployment of many Microsoft technologies based projects.

ULTIMATE offers a unique blend of strategic, creative and technical skills. Combine these attributes with our practical approach, commitment and quality will show you why so many small, medium and large enterprises choose us as their IT partner.

ULTIMATE's business philosophy revolves on client satisfaction, measurable results and long-term relationships. As a strategic partner, we utilize our expertise in technology to help define a clear vision for IT growth. As mentors to our customers, we not only show the "how" but also the "why" behind **ULTIMATE** e-solutions. Educating our Clients brings them closer to the process of change and new technological methodologies.

Because of our commitment, expertise and customer focus, **ULTIMATE** today is one of the fastest growing and most highly respected companies in Yemen. And we are proud to say that **ULTIMATE** is also regarded as a top trusted partner in the field of IT services.

Company Structure

The company structure sees the business focus in three business areas, solutions, training and consulting.

Due to the increasing complexity of IT market and its associated requirements **Ultimate** professional formed groups to provide related services.

Ultimate was formed of three departments-Solutions, Training and Consulting departments all are working together as one group to perform quality services in a very optimized and concise way.

Each of these departments is directed by professionals with proven skills, qualifications and expertise.

Solutions Department

Whatever your business venture, let **ULTIMATE** develop for you a customized solution through a partnership of shared expertise and responsibility that will ensure the direction of your enterprise.

We are one of the leading experts in helping clients envision and deploy web capabilities that generate measurable business value and delight the people who use them.

ULTIMATE professionals understand how to build an infrastructure that stands the test of time. Our wide range of services can assist you with various stages of your business operations. In fact, large, complex, international, mission-critical operational

Training Department

Ultimate Training offers courses for all areas of Information Technology. With a network of nation-wide training centers, our public scheduled courses are a convenient and popular choice. We also work closely with clients to design bespoke training solutions for specific client requirements. Training can be provided in any of our centers or onsite if required.

Consulting Department

Our Consulting Services provide powerful decision-making tools to ensure the maximum utilization of your investment in the technologies and solutions you choose. These tools provide your decision makers with a predetermined process or format to ensure all factors have been considered. Next, these tools will provide you with the ability to inherently determine the risk factors and other major success factors. Finally, these tools allow multiple parties to review your business case and make the appropriate assumptions.

Solutions Services

Our singular mission and desire was to pioneer a new way in the Internet revolution. Today, **ULTIMATE** company and colleagues are leaders in every aspect of e-business enterprise from initial strategic consulting through development, hosting, management and marketing of online services. **ULTIMATE** has used the power of the Internet to empower its clients, its customers' clients, and business partners to achieve maximum success.

Today's complex e-business processes are dependent upon solid IT architecture. **ULTIMATE** performs in-depth analysis and studies to define your system parameters and work processes, moving to conceptual data model and schema prior to embarking on your system design. Gaining a thorough knowledge of your systems and needs, **ULTIMATE** creates interfaces that are smooth and intuitive.

Training Services

MISSION STATEMENT Building and developing people's skills through quality training to support the success of their business.

Trainers

All **ULTIMATE** instructors are certified and continually upgrade their skills. They possess a blend of education, computer knowledge, business experience, and teaching ability that allow them to motivate and teach students with different levels successfully.

VALUES

Operate with a passion for training excellence, quality and unrivalled customer Service, providing the best learning experience to professional users in partnership with their organizations.

Constantly listen to customers and act as one organization worldwide to design, develop and deliver products and services to meet their needs.

Achieve superior results by leveraging the strengths of our worldwide network of learning centers and the dedication and teamwork of our people.

Make **ULTIMATE** the best place to work in our industry, focusing on the growth of our employees, and the success of our franchise operators and affiliates.

Promote respect for individuals, open communications and the highest level of integrity throughout our organization.

Operating Systems, Hardware and Networking

Ultimate Training provides years of experience in training in administration, configuration and operations for operating systems including Windows 2003, Windows XP, Windows 2000, Sharepoint Portal Server 2007, Linux, Unix and Citrix.

We train on MS Exchange 2003 and MS Exchange 2000 with a focus on practical application in a real-world environment as well as our Cisco BootCamp and other Cisco approved courses.

We offer a range of CompTIA courses covering A+, Network+, Security+ and Linux+ with superb instructor-led courses and materials.

End-user Desktop Applications

Ultimate Training provides courses for businesses and individuals at all levels of ability. The ability to properly use Excel or Word, for instance, can be business critical. Our proven approach is to use the best trainers and materials to meet the business needs of our clients through excellent, focused training.

We offer courses in Microsoft Office (Word, Excel, Access, PowerPoint, Outlook or Project), Visio, Crystal Reports.

As we are a Certipoint partner we provide the IC[®] courses and exams and in addition to that we are the first center to provide MOS(Microsoft Office Specialist) exams.

Website Development & Graphic Design

Organizations need the skills to implement an effective, reliable and secure online presence. A website is not just the public face of business or government body but also an important sales and information medium.

Ultimate Training provides experienced trainers and excellent materials to enable participants to enhance the design and functionality of their web presence and deliver real business value.

Courses available include training on HTML, FrontPage, Dreamweaver, Flash, ASP, PHP, JavaScript, XML and others.

We also offer courses in Graphic Design and Desktop Publishing skills covering MS Publisher, Adobe Photoshop, Quark Xpress etc.

Programming and Application Development

Ultimate Training provide a broad range of courses in Programming and Application development. Our courses are from Introduction to Advanced levels and include Java, ASP.NET, AJAX, VB.NET, Visual C++, C#, XML and VB specialist training.

We also provide an unrivalled range of courses in Open Source technologies including Perl, Python and Linux Bash Scripting.

Our trainers are experienced developers, utilizing their practical knowledge to allow course participants to quickly implement the skills gained on our courses.

Database Management

The management of data is at the center of any IT solution. If you cannot organize the information created, accessed and manipulated by your IT system in an effective manner, the information might as well not exist. Since **Ultimate** Training's inception, this aspect of our business has gone from strength to strength. No other IT service provider in Yemen can match our expertise in such a wide range of Database Management systems.

Ultimate is providing Database Management consultancy for all types and sizes of clients from start-ups to major multinational corporations and Government Departments throughout Yemen.

Our training courses are tailored to suit our clients' needs precisely. They range from foundation level to expert up skilling and cover the most commonly used database management systems available today, including: Microsoft SQL, Oracle, MySQL and Access. We can offer ready-made training packages or, in close cooperation with our clients, can develop courses to suit specific requirements. Our experts have successfully delivered courses covering all aspects of relational database design, development,

security and administration.

If you want to keep your DBAs and other IT staff at the cutting edge of this constantly evolving field - talk to **Ultimate** Training.

Security

IT security is a key concern for all organizations and there is an increasing requirement for staff to have the right skills in this critical area.

Professional Training offer security training courses covering all aspects of IT security. We teach the principles of good security practice, from IT policies through to good practice for operating systems configuration. Our courses are aimed not only at IT staff but at all users of computer systems who have a role to play in implementing security in their workplace.

Consulting Services

ULTIMATE Consulting understands the value of your legacy applications and your new XML solutions. Our professionals help businesses create, manage and integrate these critical business assets.

We enable your decision makers to analyze a business and IT situation in a thorough and concise manner, with the objective of making an effective decision. Effective decisions limit risk while increasing your chances for success. We enable this process by providing the tools and information so that you will not be making your critical business decisions in the dark.

Our Consulting Services provide you with services that include:

- Assessment and Planning
- Architecture Planning
- Feasibility Studies
- Proofs of Concept
